

Rail Transport

Title of the legal act and the place of publication (Journal of Laws, item)	Link to the legal act in Polish	Scope of the legal act	General requirements set out in the legal act	Information on whether an authorisation for use is required for the product in accordance with the Polish legislation	Contact details of the registered office of the authority issuing the decision authorising operation	Contact details of the office carrying out technical tests
Rail Transport Act (codified text: Journal of Laws 2020, item 1043)	https://isap.sejm.gov.pl/isap.nsf/download.xsp/WDU20200001043/U/D20201043Lj.pdf	The provisions of the Act specify among others technical standards for the use of rail vehicles and conditions for ensuring interoperability of the rail system in Poland.	Types of structures and types of equipment affecting rail traffic safety may be placed into service only after a type authorisation certificate has been issued for the first representative vehicle. Before obtaining a type authorisation certificate, types of equipment and types of structures undergo technical tests carried out by an organisational body indicated in Article 22g(9) of the Act.
